

# NEWSLETTER Grasshoppers RFC, Syon Lane

October 2017

## Project Update

We are continuing with the pitch works. The seeding had been commenced to the natural pitches, this is due to be complete before the end of the month.

The steel frame to the workshop has been completed, the follow on activities consist of pouring the ground bearing slab, erecting the external blockwork and cladding the structure.

The retaining walls to the clubhouse have commenced with the view to them being completed by the week-ending 29<sup>th</sup> October 2017.

## What to expect?

In order to minimise disruption to our neighbours on Wood Lane we have installed an on-site temporary haul road to gain access to the western side of the site. This will ensure that the majority of our activities stay within the curtilage of our site. The use of Wood Lane as an access point would only be used in exceptional circumstances and only after prior consultation with all relevant stakeholders.

We will shortly be preparing the Wood Lane boundary to allow the installation of the permanent perimeter fencing to replace the dilapidated chain-link fence in accordance with the consented scheme. In order to achieve this it will be necessary to remove all fly-tipped debris from the area and to cut a channel through the self-sown undergrowth and overgrowth before erecting the new fence.

## Looking Ahead

Our first Considerate Constructors Scheme audit is due to be scheduled in November.

The site will be closed for Christmas shutdown starting from Friday 22<sup>nd</sup> December until Wednesday 3<sup>rd</sup> January. Please be advised that the site is covered by full CCTV security and monitored remotely 24hours a day.

There have been some changes to the project team. Jerry Taylor has recently joined the team as the Project Manager.

Our project team contact details are listed below and we encourage you to get in touch should you have any queries or concerns regarding the project.

Alternatively, you can fill in the comments slip at the bottom of this letter and return either by post or by placing in the box which will be installed at the site entrance.
